

DISTO™ Plan App

Measure 3D

Measure 3D Overview

- **Point-to-Point** technology for visualization of 3D measurements directly on site
- Compatible with **DISTO™ S910** (Wi-Fi) and **DISTO™ X3/X4** (Bluetooth) on DST 360
- Features:
 - 3D real time measurements
 - Export in PDF and CAD format

Measure 3D Compatibility

Measure 3D is compatible with:

DISTO™ X3

or

DISTO™ X4

Leica DST 360

DISTO™ S910
(via Wi-Fi)

Measure 3D

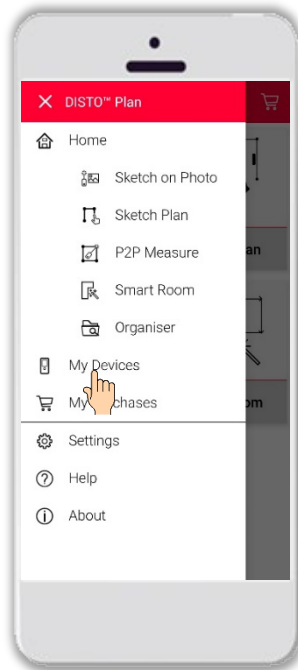

- when it has to be **right**

Measure 3D

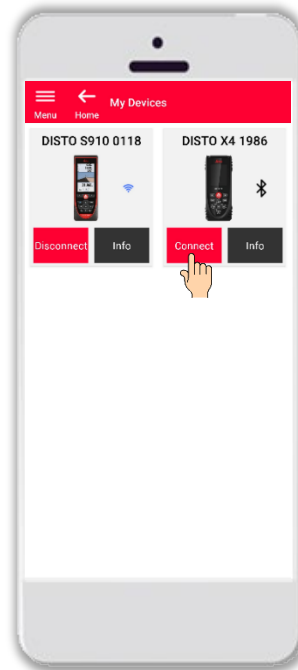

How to start

Connect with your DISTO™:

Open **My Devices**
menu from side bar

Find your DISTO™
on the list and
Connect

Remember:
Connect with DISTO™ S910 via Wi-Fi

If you need more information about connectivity, please see:

- Our **How to connect** training materials
- Our **How to connect** videos

Measure 3D

- when it has to be **right**

Leica
Geosystems

Measure 3D

How to start

Connect the DISTO™ to the
Leica DST 360 adapter:

Level the instrument before
starting measuring:

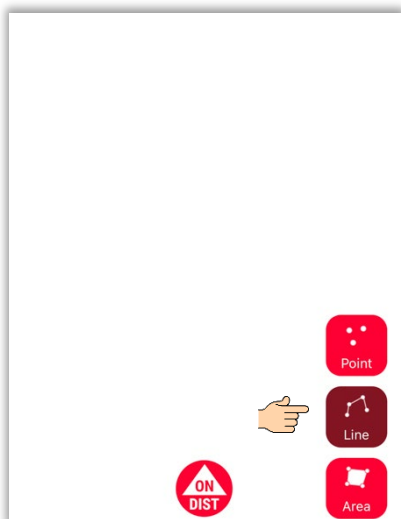

- when it has to be **right**

Measure 3D

How to measure

Select **Point**, **Line** or **Area** before you start your measurements

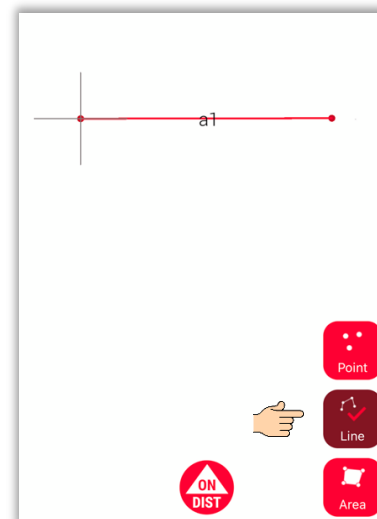

Remember:
The type of the measuring object can be changed anytime

Use the **ON/DIST** button to trigger measurements

Remember:
You can also measure using **ON/DIST** button on your DISTO™

Click on object button again to finish measurements

Remember:
Measure close to an existing point to snap

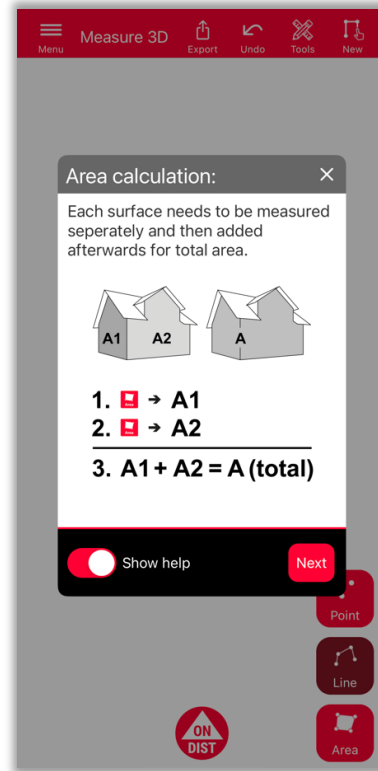

If you need more information, please see our [How to use Measure 3D](#) video

- when it has to be **right**

Measure 3D

Area calculation and coordinate system

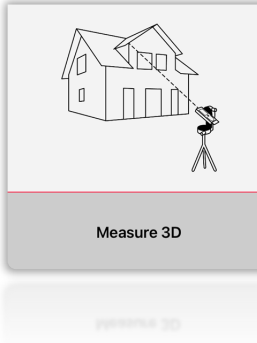

Use red **ON/DIST** button on your DISTO™ to trigger the measurement

To determine the total area, measure each surface **separately** and then combine the measurements

First 2 points will **define the x-axis** of the measured object

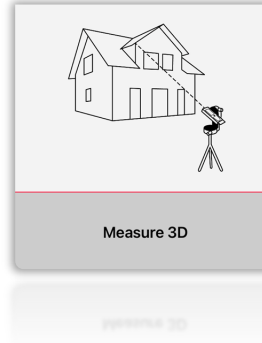

- when it has to be **right**

Measure 3D

3D View

Precise 3D plans and 3D view in real time

Draw Settings

- Open Draw Settings and select labels you would like to see
 - Distance Label
 - Area Label
 - Circumference Label

View:

You can easily zoom and rotate the view in different directions

Universal Solution:

The result of 3D measurement can be easily processed in CAD and also used for 2D floor plan or facade

- when it has to be **right**

Leica
Geosystems

Measure 3D

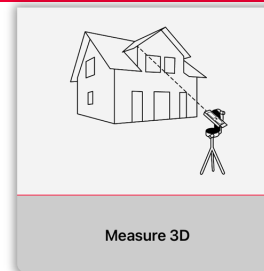

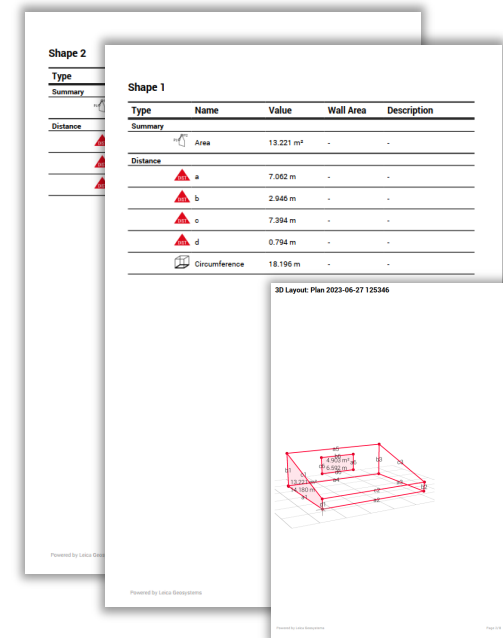

Export

Export your plan in multiple formats:

- PDF Pro

In PDF Pro file you can find all details about measured features

- when it has to be right

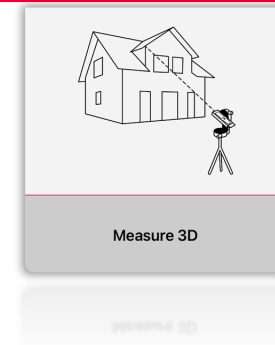

Leica
Geosystems

Measure 3D

Export

Export your plan in multiple formats:

- PDF Pro
- 3D DXF
- 3D DWG
