# How to connect

## First connection with DISTO™ - Bluetooth

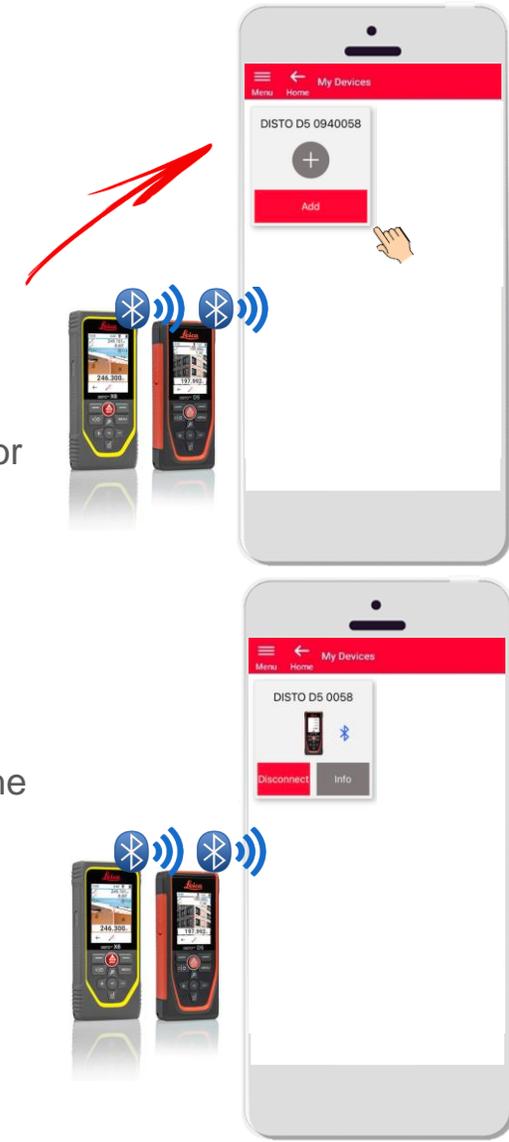

1. Turn on the **Bluetooth** on your DISTO™
2. Enable the Bluetooth from your phone/tablet in **Settings**

3. Open **My Devices**

4. All the DISTO™s available in the range will be shown
5. DISTO™ **Serial Number** and model are shown for each device in the range available for connection
6. Tap **Add** to connect with the DISTO™
7. When your device connects, the blue Bluetooth symbol and a thumbnail will be displayed

- when it has to be **right**

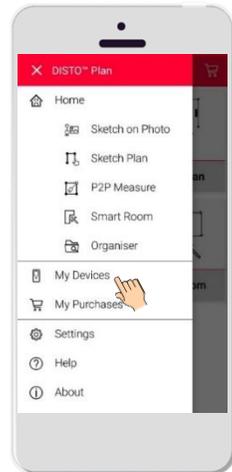

# How to connect

## First connection with DISTO™ – WiFi (DISTO™ S910)

1. Turn on the **Wi-Fi** on your DISTO™ S910
2. Open the Wi-Fi connections on your smartphone/tablet and select your DISTO™ S910 from the available networks

3. Open **My Devices**

4. All the DISTO™s available in the range will be shown
5. DISTO™ **Serial Number** is shown for each device in the range available for connection
6. Tap **Add** to connect with the DISTO™
7. When your device connects, the blue Wi-Fi symbol, DISTO™ model and a thumbnail will be displayed

After connection with DISTO™ via Wi-Fi your Internet connection will be lost

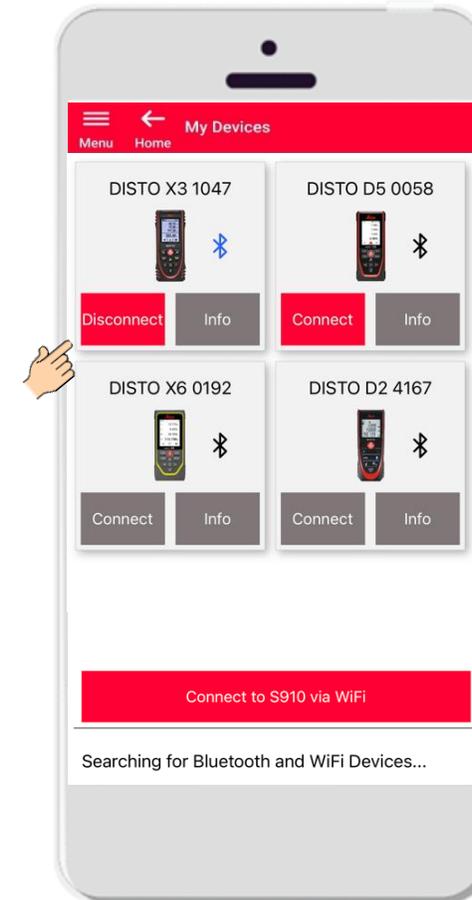

- when it has to be **right**

- when it has to be **right**

# How to connect

## Firmware update for DISTO™ X3, X4, D5, X6

- Connect DISTO™ X3, X4, D5 or X6
- If a DISTO™ Firmware update is available, it will be automatically show on screen
- Update is possible only with internet connection and if DISTO™ battery is charged at least 50%
- Tap **Later** to postpone the upgrade to the next app start
- Select **Update** to start immediately

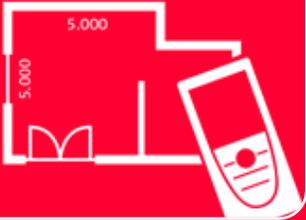

- The DISTO™ firmware will be updated automatically
- The whole process may take several minutes!
- During this process your DISTO™ will be unavailable – it will recover within 3 minutes after the update is completed
- Do not turn OFF your DISTO™ during the update
- A message **Update successful** will be displayed after the process is completed

- when it has to be **right**
